

**EVERYTHING YOU NEED,  
AND NOTHING YOU DON'T.**

Combine Hosted Exchange with Noteworthy, and  
get a custom email solution that can save you big.

**SAVINGS**

EXCHANGE      NOTEWORTHY

▶ [LEARN MORE](#)

When you combine Hosted Exchange with Noteworthy, your email users get everything they need and nothing they don't. Best of all – you save a ton with this customized solution.

**5 Exchange Boxes**  
Executives, Managers, Directors

About \$75/mo

**25 Noteworthy Boxes**  
Secretary, Tellers, Agents, Support

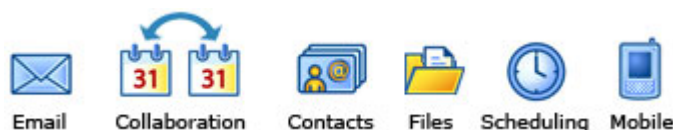

About \$75/mo

If your business needs the heavyweight collaboration features of Exchange for the corner offices, but can't justify the cost for every employee... AJT Design & Marketing, Inc. has a solution. We've packaged our premium hosted email platform, Noteworthy, with Hosted Exchange so that **everyone gets just what they need.**

Your Hosted Exchange users will be able to fully utilize the Exchange Environment, while Noteworthy users enjoy a business-class email suite well equipped with everything from webmail to mobile access. Both come with world-class spam & virus protection, a 100% uptime guarantee and 24x7x365 support. Best of all, both platforms can be administered from one central Control Panel.

**Benefits of Exchange & Noteworthy vs. Standard E-mail**

## LEAVE THE TECHNICAL STUFF TO US!!!

Hosted Exchange gives your company all the benefits that a Microsoft Exchange® environment has to offer, without any of the headaches of hosting it yourself. We provide you with a full featured solution backed by the best infrastructure in the industry, and supported by a complete staff of Exchange experts. We take care of everything for you, which means:

- **NO MORE** worrying about email going down
- **NO MORE** slow email
- **NO MORE** monitoring alerts
- **NO MORE** patching or updating Exchange
- **NO MORE** troubleshooting Exchange
- **NO MORE** data backups or restores
- **NO MORE** figuring-out wireless access to email

## Mobile Device Synchronization for Exchange

Mobile technology enables organizations of all sizes to improve the speed of service, quality of wireless communication, and effectiveness of collaboration between employees and customers. AJT offers an array of mobile device synchronization options, providing users with instant access to your email, contacts, tasks and shared calendars, improving business productivity. Our fully integrated service offers true wireless service 24/7/365, without the need for cradles or USB synchronization hardware connections. Keep your workforce connected anytime, anywhere with the device of your choice.

Choose from the leading wireless email and synchronization solutions: BlackBerry, Good Mobile and Microsoft.

- BlackBerry Enterprise Server provides unparalleled wireless access to email, phone and data services for your BlackBerry device.
- Good Mobile Messaging provides you with a comprehensive mobility solution that securely delivers your enterprise applications to your mobile device.
- Only Windows Mobile (ActiveSync) gives you mobile versions of Microsoft Office with Word, Excel, PowerPoint, and Outlook e-mail, contacts, and calendar.

## Frequently Asked Questions

### What is the main difference between Hosted Exchange and Noteworthy?

Hosted Exchange is a solution designed by Microsoft that has some advanced collaboration tools that integrates fully with Microsoft Outlook. Noteworthy is a product designed and built by us as an alternative to Microsoft Exchange and does not have the full collaborative tool set that Hosted Exchange provides.

### Do you have a minimum usage for Exchange users?

Unlike any other provider, we do not have any minimum usages for either Exchange or Noteworthy. Any other provider has a minimum of 5 users (Exchange) or \$50 per month.

**Will I be able to have some Hosted Exchange mailboxes and some Noteworthy mailboxes on one domain name?**

Yes. Our solution is designed to allow you to choose which solution is right for each user under your domain. The choice is yours.

**Can I convert a Noteworthy mailbox into an Exchange mailbox or vice-versa?**

Yes. There are several different ways to accomplish this. Please speak with your Account Manager for assistance. We can even import your current mail, no matter what type, into either Noteworthy of Exchange.

**Are there different storage limits for Noteworthy and Exchange?**

Yes. Exchange mailboxes start at 2GB and can grow to 10GB — though Microsoft does not recommend going over 5GB in some circumstances. Noteworthy mailboxes are 1GB and can grow to 10GB for just pennies. Have a full, archive, for a lifetime, on our “daily backed-up” servers, so if your computer ever crashes, *we will have every email you have ever received!*

**Can a Noteworthy user share their calendar with an Exchange user?**

There is no direct way to do this. If a user has a mailbox on both Exchange and Noteworthy, that user can use the Outlook Sync plug-in for Noteworthy to pull the Noteworthy calendar into Outlook and Exchange, including visibility into shared calendars.

**Why is the Blackberry Enterprise Service Add-on to Exchange so expensive?**

This fee is a licensing fee to RIM and is set by Blackberry. We have no control over this fee. This is not required to receive email on your Blackberry – it is only required if you want full synchronization capabilities.

**Why is Exchange 2007 so much more expensive than Noteworthy?**

Most of the costs are licensing fees to Microsoft. There is less than a 5% profit margin for providers such as AJT on Exchange services. We can offer Noteworthy at a much better monthly rate simply because all licensing fees are avoided, however it does not come without sacrifice. A truly mobile user can truly unleash the power of Exchange e-mail hosting by means of mobile device synchronization and Outlook 2007 Web Access in which a user can access their Outlook, including all stored emails and folders, from any computer in the world. Either solution, with the right storage amount, will give you a bulletproof archive of your email should your computer ever crash. We backup daily with a 14 day retention period.
